SMALL BUSINESS TRANSFORMATION

GRATITUDE

More than 90% of my clients have come through referrals in the past 20 years. I'd much rather invest my gratitude into you – my colleagues, sisters, and supporters – than pour money into ads that don't mean a thing.

Here's how it works.

YOUR THANK-YOU GIFT

- For each client who books a Chart the Course session, I will send you \$50.
- For clients who book Deep Transformation packages, I'll send you \$1500
- For referrals who go all in and book a 6- or 12-month ongoing support retainer, I'll express my thanks with \$1500 - \$5400.

FAQ

HOW IT WORKS

1. You connect me with someone who could benefit from my work (either by introduction or sharing my Pathfinding Call link).
 2. When they book, I'll ask who I can thank for the referral.
 3. Once they move forward with a session or package, I'll reach out to send your thank-you gift.
- That's it. No complicated systems, no hoops to jump through. Just magic + logistics.

WHO I WORK BEST WITH

My best clients are founders and small business owners who've outgrown sticky notes and duct-taped systems. They've built something amazing – but they're craving more flow, less chaos.

They believe in blending strategy with intuition. They know that pulling a card, lighting a candle, or pausing for breathwork can be as vital as spreadsheets and project plans.

THE WORK

At the heart of it, I help creative business owners move from Chaos → Sustainable Flow.

I do this through technology, project management, and a touch of magic.

The packages and services that follow are different doorways into that transformation.

Sacred Support for your Systems

As much as we'd love it if tech *just worked*....reality is that sometimes it doesn't. And the systems set up to deal with it when stuff breaks are...well...**broken**.

We do things differently - because we can, and because you deserve better. Here's how:

When something goes a bit hexed, you reach out to us. Our team will dig in and diagnose the problem. If we can, we'll fix it and move on. If necessary, we will engage high-level tech support with the vendor on your behalf.

THE FIRST STEP

The first step is the Pathfinding Session. In this initial complimentary 45-minute call, the goal is to deeply understand your business, the tools and systems you currently have, and where those tools and systems no longer serve.

I'll pose thoughtful inquiries designed to hone our focus for your highest good:

- Prioritize tools and technology into a holistic ecosystem to better serve your goals
- Focus our energy on the processes and systems so you can trust that everything will get done, nothing will be lost, and everyone will get (and stay) on the same page
- Provide recommendations and resources to assist you on another journey - even if we aren't the right ones to guide you.
